About This Content

Defy hostile alien abductors and fight your way off of the massive Mothership Zeta, orbiting Earth miles above the Capital Wasteland. Mothership Zeta takes **Fallout 3** in an entirely new direction – outer space. Meet new characters and join with them in a desperate bid to escape the Aliens' clutches. To do so, you'll wield powerful new weapons, like the Alien Atomizer, Alien Disintegrator, and Drone Cannon, and deck yourself out in brand new outfits, like the Gemini-Era Spacesuit and even Samurai Armor.

STORY

A strange Alien signal is being broadcast throughout the Capital Wasteland, originating from a crashed UFO. Is it a distress call, or something far more sinister? That question is answered when you find yourself beamed aboard an enormous Alien spacecraft, with only one alternative – to fight your way to the bridge of the ship and secure your escape.

KEY FEATURES:

- Find and exploit new and destructive alien technology, like the Alien Atomizer and Drone Cannon.
- Explore the vast Mothership and learn the secrets of the Aliens' master plan.
- Thwart the Aliens' attempt to stop your escape, and take over the Alien ship before it wreaks havoc on the unsuspecting Earth below.
- Fight against the Alien Invaders, their robot drones, and turn their own horrible experiments against them.
- Ally yourself with an unexpected array of characters, both from the Capital Wasteland and from Earth's past.

Aesthetic, simplistic style challenging puzzler that serenades you with emotionally evocative piano solos as you gene-splice yourself angelic sequences. Brilliant stuff.. its ok but nothing like euro truck simulator. Some of the most fun on a game I've had in a super long time. I definitely reccomend this to any and all. Mechanics are neat, puzzles are fun, visuals are awesome, some parts are eerie; it's just an all around good game.. The game is fun but a little short on content. It's a diamond in the rough.. If you did not get it for free, it's not worth the price tag.

Should've been included in the base game.. Absolutely hopeless! Screen controls way out of alignment. Complete waste of money.. It's a great game, don't get me bad.....but I can't recommend it just because you can buy similar games which are a lot better.....hexcells comes in mind..... Really enjoying this game, great graphics and nice atmosphere within the game. Would definately recommend for those who have never played backgammon before. Worth getting this to learn and master the physical board game. Great buy.

lower the prize no one will play your stupid game for that prize.. Neat little game. Just as simple, and just as complex as first-graders need it to be.

The difficulty is also rather self-paced, and seamless, which makes it easier for little children to digest.

UI is superb!

Bonus points: the game is almost a-lingual, so kids that do not know English (or any other of the supported languages) can enjoy it just as much!. The boss fights are challenging and fun!. quote;"Donald Trump's tiny little hands sprinkled bonsai clippings all over my long, firm, staff and tragically fell in love with a deep hobbit hole and that corner mouth white stuff, now fly you fool!"
